

The Wenatchee River Watershed

This is the Wenatchee River, the river you will be exploring on your Field Day! Discuss these questions with your class:

1. What animals and plants do you think rely on this river for survival?
2. Do you think this river and the surrounding landscape is healthy habitat for plants and animals? How can you find out if it is healthy or not?
3. What can you do to help keep this river healthy?
