Signs of Spring

Questions to answer while watching Wenatchee River Institute's "Signs of Spring" at: <https://www.youtube.com/watch?v=ImoQNgJ6pSE>

1 Draw or describe why we have spring.

2 How are the rivers and creeks affected in the springtime?

3 Look outside your window or go for a walk around your neighborhood and look for signs of spring. Circle what you see and how many different kinds of each.

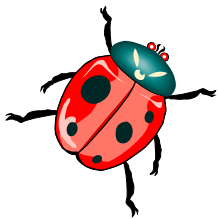

Flowers

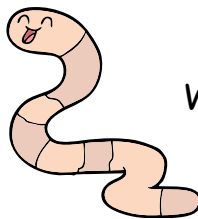

New Growth
on trees

Birds

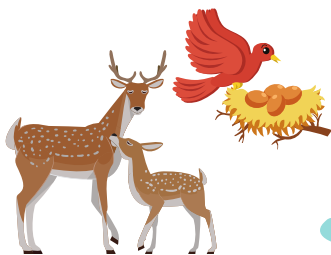

Bugs

Worms

Lizards or
Amphibians

Baby Animals

4

In what ways do farmers have to prepare for springtime?

5

How do you change in the springtime? What are some of your favorite things to do in the spring?

Next time you go outside, look for the constant new signs of spring each week and draw some of your favorite things you see or keep a journal of the new things you see each week. Have fun!
