Ecosystems of Leavenworth and Wenatchee

Questions to answer while watching Wenatchee River Institute's "[Ecosystems of Leavenworth and Wenatchee](https://youtu.be/SI45KofPErE&t)" at: <https://youtu.be/SI45KofPErE&t>

1 What is an ecosystem?

2 Write or draw what plants need to survive using the acronym: L.A.W.N.S

3 Describe the ecosystem in Leavenworth and some plants you might see there.

4 What is a Riparian ecosystem and what plants might you see in this area?

5 Write or draw how you think plants in a riparian ecosystem are getting light, air, water, nutrients, and space.

6 Describe the ecosystem in Wenatchee and some plants you might see there.

7 Bonus: Next time you go outside in your local ecosystem, notice the different plants and animals you see around you. On the back on this paper, draw some of the plants and animals you saw.
