Why Do Animals Behave the Way They Do?

Questions to answer while watching Wenatchee River Institute's "Why Do Animals Behave the Way They Do" at: <https://youtu.be/P-ZSvRTDaL4>

- 1 What are behavioral adaptations?
- 2 What did you learn about bird songs and/or calls?
- 3 List some of the mnemonics for the birds that are mentioned in the video. Circle the ones you have seen or heard.
- 4 Where does the Monarch butterfly migrate from and why?
- 5 What is hibernation?
- 6 What are some differences between how a chipmunk and bear hibernate?

 7 Bonus: Draw the Monarch Butterfly life cycle. on the back of this paper.

Next time you go outside, spend some time observing animals and noticing their unique behaviors.
